<http://53.16.255.248:3032/redirect/driver1>

When user click on link it is not redirecting to FE2

Circulation list is empty , When user click buffer list and come back again it will display data & it does not have SAP latest detail . It will automatically disappear

New requirement , User should be able to upload the image for each buffer zone and same needs to be displayed

Change designation to Destination
